

## Hereford transport strategy review – upcoming meeting

This is to let you know that the Hereford transport strategy review, including the peer review of the South Wye and Hereford transport packages, will be considered by Cabinet members at a meeting on Thursday 3 December 2020, 2.30pm.

You will be aware that the review set out to better understand existing and future road conditions in the City, alternative transport options and the changing national policy context, particularly the declared climate emergency, alongside an independent peer assessment of the proposed major road schemes.

The review outcome report sets out the assessment criteria and process undertaken and clearly describes objectives and outcomes against which potential future transport options could be judged. The findings of this thorough and detailed assessment of a range of individual options and packages of options will be presented for consideration at the meeting, with recommendations from the general scrutiny committee. Cabinet will also determine how it wishes to proceed on the Southern Link Road and Hereford bypass projects.
